CLB 9 for Canadian PR, starting from "I didn't know how to approach IELTS"

Sneha Dani: IELTS coaching for a Canadian permanent residence application.

Service	IELTS coaching
Goal	CLB 9, the score her Canadian PR application needed
Starting point	Good English, but no idea what IELTS expects or where to begin
Result	Scored CLB 9 and got her Canadian PR

Where she started

Sneha searched Google for a long time before choosing where to train. She picked RES because of its reviews. She had a good command of English, but no idea what IELTS was about or how to approach it.

The problem

Writing is where most strong English speakers lose their band. The test rewards how you present your answer and how you approach each question type, not just good English.

What we did

- Explained what IELTS is and what the examiner expects, section by section.
- Broke down each component of the test.
- Showed her exactly what to work on in Writing to reach the band she needed.

The result

> *"Despite having a good command over the language, sometimes it's the way you present yourself and the way you approach a particular question. That's what really helped me. I got a CLB 9, which was the requirement for my PR application."*
>
> *Sneha Dani, in her own words*

Is this you?

Don't guess your band. Take one full IELTS mock first: you'll see which section is holding you back before you pay for coaching or book the real exam.

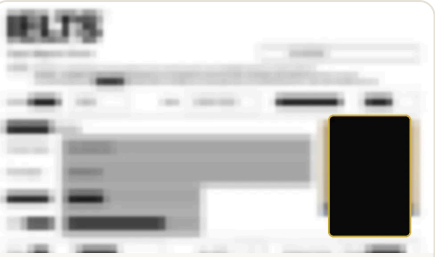

WhatsApp +91 90353 66635 and ask for a mock test.
